Wireless Light Control
Preimum Set

LU-CK-005-01

Features
3 Channel of light control.
Easy to click into the ceiling.
Optional for any wireless door sensor, daylight sensor and motion sensor.

Description
3 channel control module x 1
Wireless 3 gang light switch with master OFF x 2

Spec.
Control Module :
90V-250VAC, 50 / 60Hz
Maximum load : 300W / 110V , 600W / 220V per channel

Wireless Devices :
3V, CR2032 coin batteries
433.92Mhz
60 meters depends on atmospheric conditions
3 years of battery life under normal operation

CE, EMC, FCC and RCM approved

Wireless Light Control

LU-CK-004-01

Features
3 channel of light control.
Suitable specific areas installation 3 channel at once.
Optional for any wireless door sensor, daylight sensor and motion sensor.

Description
3 channel control module x 1
Wireless 3 gang light switch with master OFF x 2

Spec.
Control Module :
90V-250VAC, 50 / 60Hz
Maximum load : 300W / 110V , 600W / 220V per channel

Wireless Devices :
3V, CR2032 coin batteries
433.92Mhz
60 meters depends on atmospheric conditions
3 years of battery life under normal operation

CE, EMC, FCC and RCM approved

Home Automation System
DIY Set

LU-CK-008-01

Features
AC plug-in for easy installation.
Battery backup.
Emergency flashlight when disconnect power.
Night light.
Door bell, call help and panic.
Door sensor status indicator.

Description
DIY control module x 1
Wireless door bel x 1
Wireless door sensor x 1
Wireless wrist remote x 1

Spec.
Control Module :
90V-250VAC, 50 / 60Hz

Wireless Devices :
3V, CR2032 coin batteries
433.92Mhz
60 meters depends on atmospheric conditions
3 years of battery life under normal operation.

CE, EMC, FCC and RCM approved

Wireless Light Control
Quick Set

LU-CK-001-01

Features
1 channel of light control.
Easy to start and install.
Optional for any wireless door sensor, daylight sensor
and motion sensor.

Description
1 channel control module x 1
Wireless 1gang light switch(piano type) x 1

Spec.
Control Module :
90V-250VAC, 50 / 60Hz
Maximum load : 500W / 110V , 1000W / 220V

Wireless Devices :
3V, CR2032 coin batteries
433.92Mhz
60 meters depends on atmospheric conditions
3 years of battery life under normal operation

CE, EMC, FCC and RCM approved

Wireless
Dimmable Light Control (0-10V) Quick Set

LU-CK-003-01

Features

Easy to adapt to 0-10V of dimmable LED lights.
Dimming up and down with button press.
Smart memorized last dim level.

Description

1 channel dimmable control module x 1
Wireless dimmable light switch x 1

Spec.

Control Module :
AC input : 90V-250VAC, 50 / 60Hz
Dimm output : 0 -10VDC

Wireless Devices :
3V, CR2032 coin batteries
433.92Mhz
60 meters depends on atmospheric conditions
3 years of battery life under normal operation

CE, EMC, FCC and RCM approved

Wireless
Dimmable Light Control (triac) Quick Set

LU-CK-002-01

Features

Universal to suit any dimmable lights.
Easy to start and install.
Dimming up and down with button press.
Smart memorized last dim level.

Description

1 channel dimmable control module x 1
Wireless dimmable light switch x 1

Spec.

Control Module :
90V-250VAC, 50 / 60Hz
Maximum load : 150W / 110V , 300W / 220V

Wireless Devices :
3V, CR2032 coin batteries
433.92Mhz
60 meters depends on atmospheric conditions
3 years of battery life under normal operation

CE, EMC, FCC and RCM approved

Wireless
Garage Door Opener

LU-CK-009-01

Features

Wireless Garage Door Opener
Universal compatible with rolling type
3 button switch for Up, Down, Stop Control .

Description

3 relay control module x1
Wireless 3 button switch x1

Spec.

Control Module :
90V-250VAC, 50 / 60Hz
Maximum load : 300W / 110V ,
600W / 220V per channel

Wireless Devices :
3V, CR2032 coin batteries
433.92Mhz
60 meters depends on atmospheric conditions
3 years of battery life under normal operation

CE, EMC, FCC and RCM approved

Door / Window Status Indicator

LU-CK-010-01

Features

Sleek design compatible with existing security control modules.
Allowing the capability to monitor each door / window's status

Spec.

Control Module :
12VDC
4 dry contacts.

Wireless Devices :
3V, CR2032 coin batteries
433.92Mhz
60 meters depends on atmospheric conditions
3 years of battery life under normal operation

CE, EMC, FCC and RCM approved

Wireless Curtain Control

LU-CK-011-01

Features

Wireless Curtain
Universal compatible with curtain motor control output
3 button switch for Up, Down, Stop Controlling.

Description

Receiver module x1
Wireless 3 button switch x1

Spec.

Control Module :
12VDC
8 output

Wireless Devices :
3V, CR2032 coin batteries
433.92Mhz
60 meters depends on atmospheric conditions
3 years of battery life under normal operation

CE, EMC, FCC and RCM approved

Wireless Switch

- Wireless switches are designed to solve existing cable installation problems and reduce cost.
- Multiple combination for setting up different light mode or group control.
- The master OFF function gives you the ability to turn all the lights OFF at single press of a button.
- Available in different style to suit individual customer requirements.
- The wireless switch enables you to place a light switch where ever you require.
- Low current consumption.
- Precise transmission.

Classic Style

RL-TX-E01-01	RL-TX-E04-01
RL-TX-E02-01	RL-TX-E05-01
RL-TX-E03-01	RL-TX-E06-01

Description
1 gang ~ 6 gang
Available for Mater On / Off

Spec.
3V, CR2032 coin batteries
433.92Mhz
60 meters depends on atmospheric conditions
3 years of battery life under normal operation
CE,EMC ,FCC and RCM approved

Stylish Style

RL-TX-H01-01	RL-TX-H05-01
RL-TX-H02-01	RL-TX-H06-01
RL-TX-H03-01	RL-TX-H07-01
RL-TX-H04-01	RL-TX-H08-01

Description
1 gang ~ 8 gang
Available for Mater On / Off

Spec.
3V, CR2032 coin batteries
433.92Mhz
60 meters depends on atmospheric conditions
3 years of battery life under normal operation
CE,EMC ,FCC and RCM approved

Piano Style

| RL-TX-G01-01 | RL-TX-G03-01 |
| RL-TX-G02-01 | |

Description
1 gang ~ 3 gang

Spec.
3V, CR2032 coin batteries
433.92Mhz
60 meters depends on atmospheric conditions
3 years of battery life under normal operation
CE,EMC ,FCC and RCM approved

Accessories

- We also have various bridge/interface to support PC, smartphone, cloud applications.
- Free APP download for smart phone operation.
- Smart capability for different wireless devices enabling you to upgrade your automation system.

Repeater

GW-RP-001-01

Description
When the wireless distance needs to be extended, or repeated,
can placed anywhere. Just plug this unit.

Spec.
5V
(Included optional switching power cube adaptor)

Wireless Door Bell

GW-DB-001-01

Description
Can be placed anywhere you need a door bell.
"Ding Dong" Sound.

Spec.
3V, CR-2032 coin batteries
433.92Mhz
60 meters depends on atmospheric conditions
3 years of battery life under normal operation
CE, EMC, FCC and RCM approved

Wireless call help / panic switch

GL-PN-002-01

Description
Can be placed anywhere you need.
Compatible home automation system.

Spec.
3V, CR-2032 coin batteries
433.92Mhz
60 meters depends on atmospheric conditions
3 years of battery life under normal operation

CE, EMC, FCC and RCM approved

Wireless wrist call help / panic remote

GL-PN-001-01

Description
Elderly people can wear the wrist remote
to call for help in case emergency.

Spec.
3V, CR-2032 coin batteries
433.92Mhz
60 meters depends on atmospheric conditions
3 years of battery life under normal operation

CE, EMC, FCC and RCM approved

Wireless 2 button switch with master ON / OFF

Description
For customized utilization like turn on / off motor compressors.
Giving master ON/OFF command for machines.

Spec.
3V, CR-2032 coin batteries
433.92Mhz
60 meters depends on atmospheric conditions
3 years of battery life under normal operation

CE, EMC, FCC and RCM approved

Wireless Remote Control

GL-TX-A01-01

Description
6 button of remote control.
Available for different combination to suit customer requirements.
Can be compatible with light control, gate control or arm / disarm.

Spec.
3V, CR-2032 coin batteryY
433.92Mhz
60 meters depends on atmospheric conditions
3 years of battery life under normal operation

CE, EMC, FCC and RCM approved

AC / DC power adaptor

GL-PW-001-01

Description
AC / DC switching power adaptor.
Suitable all wireless switch.
Easy to adapt mechanical wireless switch.

Spec.
90VAC-250VAC Input
3VDC output

14

15

Mounting Plate

RL-MT-C01-01

Description
European size and color printing
86x86mm

Mounting Plate

RL-MT-B01-01

Description
European size mounting plate
86x86mm

Mounting Plate

RL-MT-A01-01

Description
US size mounting plate
117x77mm

Sensor

- Wireless sensor is stable and its slim design can easily be mounted anywhere.
- It solves the wire / pipe exposure problem of tranditional wired devices.
- Giving full flexibility and allowing the ability to automatically turn lights in different scenes.

Wireless Door / Window Sensor

SQ-DS-C01-01

Description
Very slim style. When door is opened, it sends the signal to receiver module to turn on lights automatically or trigger for alert.

Spec.
3V, CR-123A battery
433.92Mhz
60 meters depends on atmospheric conditions
1 years of battery life under normal operation

CE, EMC, FCC and RCM approved

Wireless Daylight Sensor

RL-LS-C01-01

Description
Automatically turns on the lights for a preset period when dusk is detected.

Spec.
3V, CR-123A battery
433.92Mhz
60 meters depends on atmospheric conditions
1 years of battery life under normal operation

CE, EMC, FCC and RCM approved

Wireless Motion Sensor (DC version)

RL-PR-C01-01

Description
Automatically turns on the lights for a preset period when movement is detected.

Spec.
3V, CR-123A battery
433.92Mhz
60 meters depends on atmospheric conditions
1 years of battery life under normal operation

CE, EMC, FCC and RCM approved

Wireless Motion Sensor (AC version)

RL-PR-D01-01

Description
Automatically turns on the lights for a preset period when movement is detected.

Spec.
90V-250VAC, 50 / 60Hz
433.92Mhz
60 meters depends on atmospheric conditions

CE, EMC, FCC and RCM approved
